Experience History

NRS ~ Inspector Apr 2022 – Today

Inspection of Multi Family, Single Family, and Commercial Properties. Travel across Pacific Northwest to inspection locations. Reporting completed for each inspection. Some include mapping and measurements as well as interior evaluations. Photos for each inspection are attached to each inspection, sometimes 50 pictures or more.

Actalent (contractor Bonneville Power Administration) ~ Realty Tech II Oct 2023 – Feb 2026

Processing land use applications, using Land Information System (LIS), conducting research, gathering applicable maps, preparing and transmitting files to appropriate parties. Assist in verification of legal description, consistency, and accuracy for a variety of legal documents. Draft and use existing templates for land management, legal and other items assuring formatting accuracy. Recommend modifications to templates to accommodate unique situations. Research, identify and/or summarize property rights and ownership. Provide courthouse real estate research, including ownership, land rights, property descriptions, zoning, land use planning, etc. Utilize various internet web sites and BPA applications to conduct research, reconcile information discrepancies and record and track project activities. Perform fieldwork support such as conducting directed acquisition activities, delivering documents for signature by landowners, crop damage inspections, documenting the certificate of inspection and possession, and collecting field data as needed. Verifying all necessary exceptions are included with the title report. Review acquisition assembly packages and confirm all necessary acquisition documents are supplied. Review real estate-related agreements to verify compliance. Work with applicants to provide adequate information on land use applications to include site visits, property owner meetings, and field research as required. Close case files, prepare file for closing transmittal, including purging the file when case is complete. Receive application fees and process as appropriate. Answer and respond to real estate questions from the public regarding documented policy of proposed uses of rights-of-way. Provide administrative/clerical support to staff. Attend meetings, as requested, to take meeting notes, record decisions, define action items, due dates, etc. Mark documents and maintain filing system(s), files, emails and records in accordance with compliance requirements. Mark and maintain all official records in accordance with the Information Security (INFOSEC) and Information Governance & Lifecycle Management (IGLM) standards and procedures. Validate official records are accurately maintained for auditing purposes.

Kitchens Plus Bath LLC ~ Bookkeeper Jun 2022 to Oct 2024

Construction management. Project management. Bookkeeping. Inventory management. Shipping and receiving. Product and supplies ordering. Sales and Marketing.

Team Health ~ Practice Coordinator Apr 2023 – Sept 2024

Responsible for supporting and maintaining the practice both administratively and operationally. Administratively, by supporting the Hospital Medicine Facility Medical Director, VP of Client Service, Regional Medical Director, and HM provider staff, and by working with the hospital administration team to ensure all needs are met. Operationally, by accurately identifying and

accounting for each patient seen in the hospital by the hospitalist physicians while ensuring that each medical record contained all required information for proper billing and coding. Responsible for obtaining, reconciling and forwarding all required documents of each in-patient medical record to the billing center. Gathered key facility metric data for reporting. Maintained accurate data to report the number of records and specific key measures. Communicated on a regular basis with the designated supervisor and Facility Medical Director. Followed and maintained patient confidentiality appropriate to HIPAA compliance standards. Accessed hospital information systems and worked with facility staff to procure patient demographic and insurance data to ensure correct billing information. Coordinated completion of all clinical documentation from physicians; and worked with the medical director to ensure complete documentation and signatures. Held monthly provider meetings – scheduling meetings, agenda preparations, and minutes. Coordinated facility provider scheduling changes and notification. Collected messages and mail distribution. Performed miscellaneous duties and tasks assigned by leadership: brochure distribution, marketing, call back program, and PCP notification program. Completed other duties as assigned and within the scope of the position.
